**PROTON**<sup>®</sup>  
ON SITE

### Global Leader In Innovative Laboratory Gas Solutions

As the global leader in hydrogen generation, Proton Onsite is the world's largest manufacturer of on-site hydrogen generators with over 2,600 units installed worldwide. We have developed and applied PEM electrolysis technology for over 20 years. Our hydrogen, nitrogen and zero air generators are versatile solutions that streamline operation for a broad variety of industries worldwide. To meet the diverse requirements of our customers, our on-site gas generators are safe, reliable and cost-effective. We are proud to manufacture dependable solutions that generate the gas you need, when and where you need it.

nel •

### Unlocking The Potential of Renewables

Nel is a global, dedicated hydrogen company, delivering optimal solutions to produce, store and distribute hydrogen from renewable energy. We serve industries, energy and gas companies with leading hydrogen technology. Since its foundation in 1927, Nel has a proud history of development and continual improvement of hydrogen plants. Our hydrogen solutions cover the entire value chain from hydrogen production technologies to manufacturing of hydrogen fueling stations, providing all fuel cell electric vehicles with the same fast fueling and long range as conventional vehicles today.

**EATON**

AUTHORIZED  
POWER ADVANTAGE  
Power Reseller

### Powering Business Worldwide

Eaton is a leading provider of backup power UPS, or uninterruptible power supply. Eaton UPSs deliver high quality, reliable backup power for everything from network closets and server rooms to enterprise and colocation data centers.

**ON SITE**  
Gas Systems

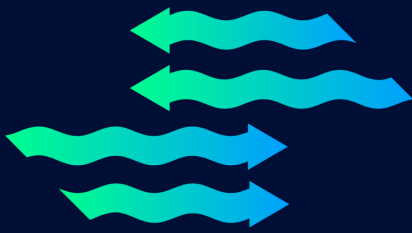

### Onsite Nitrogen and Oxygen

On Site Gas Systems is a pioneer in oxygen and nitrogen generator technology. Many of our original generator systems are still going strong after 27 years. Our precision-engineered oxygen and nitrogen generation systems are used throughout the world in mission-critical applications, across dozens of industries

## LAB AND INDUSTRIAL

### Analytical Laboratory Supplies

Ibis Scientific, headquartered in Las Vegas, Nevada is a direct marketer and supplier of analytical laboratory products and certified reference standards to analysts throughout North America. As a leading provider of standards and consumables for GC/LC, and ICP/ICP-MS instrumentation. The company's core product offering has a wide range of analytical instrument components, high-purity standard solutions and reagents, plus many other general labware consumables for the clinical/toxicology, pharmaceutical, environmental, petrochemical, and cannabis testing laboratories.

### High Purity Water Technology

Water that has been treated to the highest levels of purity for all contaminants. High purity water is treated through multiple steps to meet the quality standards for different users. While most commonly used in the semiconductor, lab and power industries, the standards of water quality vary for each user. No matter what your industry Evoqua provides a variety of industry-leading solutions to meet the standards required for your application.

### Power Quality Solutions

Power quality is the lifeblood of Analytical Instruments. Powervar's solutions are tailored to the unique needs of these technologically complex systems. A leading global provider of advanced power quality solutions. AMETEK Powervar's transformer-based power conditioners and uninterruptible power supplies provide complete power quality solutions to the medical, industrial, and retail technologies markets

### Industrial Solutions

Atlas Copco in the United States handles the sales and service of industrial air compressors, dryers and filters, compressor parts and service, and vacuum pumps. Our products help customers to achieve sustainable productivity in a wide range of markets, including general engineering, manufacturing and process industries, construction, automotive, electronics, oil and gas, and much more.
